

No more interruptions at dinner. No more 8:55 pm calls. No more rude telemarketers who don't believe you when you say "No, thank you." No more getting frustrated and having to hang up on, or lie to telemarketers. No more feeling guilty about aforementioned frustration and lies. I can finally shop for vacuums, siding, windows, kitchen cabinet refacing, financial planning seminars and chimney cleaners when I want to.

Please do not make any changes to New Jersey's "Do not Call" law.

Thank you.
